FINANCIAL AND COMMERCIAL.

The stock market has been excited and irregular to-day, owing chiefly to a further large rise in Michigan Bouthern, the price of which touched 104, regular, late in the afternoon. The extreme upward movement of this stock has been a source of surprise to the street, and all sorts of speculations are hazarded upon its future course. The general tendency of prices appears to be upward, and the "buili" element in the ascendant.

The money market is closer to-day, in consequence of a disinctination on the part of bankers to extend their discount linea on the last day of the quarter, and just before making their quarterly statement; but there was no particular pressure felt in monetary circles, as the demand was comparatively light. Discounts are steady at ten per cent per month on the street. Eastern exchange is still scarce, but the demand to-day is still light, and the market ruled quiet and firm at par buying, and 1-10 premium selling. The bankers generally bought as little outside exchange as possible.

The Cincinnati Commercial of the 24 thus reported:—

The Cincinnati Commercial of the 2d thus reported:—
Exchange is scarce enough to keep bankers close up to the pent of shipping legal tenders. The demand is sicadily large, and but little is making through movement of produce. The local exchanges of the banks were unusually large to day through active checking; but their discount business was not more than moderate. A comfortable feeling as to currency is experienced, but there is not much of it accumulated lying lide. It has notes a State bank out, however, to the extent of \$352,000. The Venango County National Bank of Franklin has a capital of \$300,000 and \$100,000 in bonds deposited, upon which it has received \$85,000 of national currency, and it also has \$108,000 of its old State issues outstanding. The Petroleum Bank of Thusville had taken steps to organize as a national bank, but it had never deposited any bonds or received a certificate of authority to do business as such. It has a capital of \$100,000 and about \$50,000 circulation. The National Bank of Lawrence county, at Newcastle, has a capital of \$150,000 and about \$100,000 of its old notes out. The intelligence from the North created considerable consterration here, and prices receded about 2½ a 2½ per cent; but the reduced figures prompted a speculative demand, which doubtess checked the downward tendency of the market, and resulted in rather heavy sales. The movement in foreign bills to-day has resulted in a decline all round of about two per cent, swang exclusively to the falling off in, rates at New York. The market was amply supplied from the opening to the close, but the demand was of a very restricted character throughout, as most of the principal buyers had absented themselves from the market, and the operations were limited.
